

VIDYASAGAR

Software Engineer | Data Analyst | AI Engineer

Lucknow, Uttar Pradesh, India | +91 6390699517 | vidyasagararya41@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

B.Tech IT graduate from BIET Lucknow with hands-on experience across full-stack development, data analysis, and AI engineering. Built and deployed production-grade systems including a containerized School Management Platform (Docker, CI/CD) and an NLP-powered Career Guidance System with ATS scoring, skill gap analysis, and a support chatbot. Completed Java and AI integration training at HCL Tech, leveraging AI APIs to automate code review and QA processes. Proficient in Python, Java, SQL, and modern frameworks across backend, data, and ML domains. Eager to contribute from day one in roles spanning software engineering, data analytics, or AI development.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frameworks & Libraries: Spring Boot, Django, Flask, React.js, REST APIs

AI / ML: NLP (NLTK), AI API Integration, Voice Recognition, ATS/Resume Scoring, Chatbot Development, Scikit-learn, Regression, Classification

Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Excel, Google Sheets

Databases: MySQL, MongoDB, Redis

Cloud & DevOps: Docker, CI/CD (GitHub Actions), GCP, AWS (EC2, S3 Basics)

Tools: Git, GitHub, Jupyter Notebook, VS Code, Postman

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Statistics, Computer Networks

TECHNICAL PROJECTS

SchoolSync — School Management Platform | *React, Django, Redis, Docker, Nginx, CI/CD* | [GitHub](#)

- Digitised rural school operations by replacing paperwork with an online portal for student enrolment, teacher records, and fee collection.
- Enforced Role-Based Access Control (RBAC) with separate dashboards for Admin, Teacher, Student, and Parent roles.
- Delivered modules for attendance tracking, exam scheduling with auto result calculation, fee invoicing, timetable generation, and a parent portal.
- Configured Redis caching, Nginx reverse proxy, Docker Compose for containerised dev/prod environments, and GitHub Actions for CI/CD.

CareerPilot AI — Career Guidance System | *Python, NLTK, Pandas, Flask, REST API* | [GitHub](#)

- Built a career guidance platform with a CV analysis engine, ATS score checker, and personalized project recommendations based on user profiles.
- Engineered a skill gap analysis module that compared user profiles against industry role requirements and surfaced missing skills with priority ranking.
- Designed a job recommendation engine using NLP-based similarity matching to identify relevant roles based on candidate profile content.
- Added an NLP-powered support chatbot and OTP-based login system; improved user interaction efficiency by 40% via optimized Flask routing.

SARA AI — Voice Assistant & Workflow Automation | *Python, Voice Recognition, pyttsx3, Automation* | [GitHub](#)

- Built a voice-activated assistant handling email dispatch, web searches, and system-level commands, cutting task execution time by 60%.
- Enabled offline Text-to-Speech (TTS) via pyttsx3, ensuring 100% functionality without internet or cloud dependency.
- Automated 10+ daily recurring workflows, saving over 1 hour of manual effort per day.

PROFESSIONAL EXPERIENCE

Java Development with AI, Trainee, HCL Tech

Lucknow | Sep 2024 to Mar 2025

- Engineered Java Spring Boot modules as part of a team training project, improving code modularity and reducing debugging time by 20%.
- Leveraged Python scripting and AI APIs to automate code review checks and 5+ repetitive QA tasks, reducing QA effort by approximately 30%.
- Analysed repetitive coding patterns to uncover automation opportunities and improve data flow and system modularity.

Web Developer Intern, CodeSoft

Lucknow | Oct 2024 to Nov 2024

- Revamped the frontend of an e-commerce bookshop using HTML5, CSS3, and JavaScript — reduced page load latency by 25% via lazy loading and asset optimization.
- Optimised MySQL queries to accelerate product search and lower database retrieval time by 30%.
- Collaborated in a 4-member Agile team across 2-week sprints; delivered 3 features on schedule.

EDUCATION

B.Tech in Information Technology, BIET Lucknow

Completed June 2026 | SGPA: 8.25

Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Statistics

CERTIFICATIONS & ACHIEVEMENTS

Java Development — HCL Tech

Software Engineering Job Simulation — Accenture

Data Visualization — Tata Group

Cleared Voms Tech technical assessment with proficiency in HTML, CSS, and JavaScript
